V. **Compliance Activity Report:** Mr. Kovar explained that the MGCLERC Compliance/Enforcement Committee sent out warning letters to facilities that failed to properly report releases from June 1996 thru December 1996. The committee is beginning to look at releases that occurred during the first half of 1997. Mr. Kovar also informed the group that a full scale exercise is due by June 30, 1998 in order to receive credit from the SERC. Mr. Zinc volunteered to assist with the exercise.

VI. **MGCLERC Facility Mapping:** Mr. Glum presented a map showing the locations of all the facilities (over 1400) in Greene and Montgomery Counties that report under SARA Title III. The locations of these facilities have all been entered in MVRPC's Arc Info-based Geographic Information System and can now be linked to the facility databases. Additional maps are being developed, such as facilities in Greene and Montgomery Counties that have Extremely Hazardous Substances. Mr. Glum said to contact Ken LeBlanc to request SARA facility location maps.
